Assembly Instructions

Kit includes: Top, Base, Aluminium posts (x2) M10 bolts (x4), M8 screws (x2) and lighting post/ tubes (if applicable)
(Note graphic substrates are not included)

1
Insert the 1st aluminium post into the base.

2
Secure the post using 1 M10 bolt, tighten using an M10 Allen key. Repeat steps 1 & 2 for 2nd post.

3
Attach the lighting post (if applicable) to the base using 1 M8 flat head screw.

4
Tighten the M8 screw using a flat head screwdriver.

5
Repeat steps 1 to 4 to attach the top. Only loosely affix the top to the posts.

6
Stand the unit up.

7
Place the graphic substrate into the base channel.

8
Feed the vertical edge of the graphic substrate into the 1st aluminium post.

9
If required, loosen the top fixings. Fit the remainder of the graphic substrate into the 2nd post.

10
Fit the the graphic substrate into the top and into the 2nd aluminium post.

11
Ensure the fluorescent lights are switched on. (If applicable)

12
Feed the 2nd graphic substrate into the base channel.

13
Fit the the graphic substrate into the top and into the 2nd aluminium post.

14
Adjustment may be necessary to locate the graphic substrate into the top channel.

15
Tighten the top fixings using a flat head screwdriver and M10 Allen key.
